

Introduction:

Welcome to the user guide for the PDF Viewer Tool. This document provides instructions for downloading and installing the PDF Viewer Tool, which is required to view PDF documents. Please follow the steps below to install the tool on your system.

Step 1: Download the PDF Viewer Tool:

Open your web browser and navigate to the download page for the PDF Viewer Tool.

Click on the download link to initiate the download process.

Save the downloaded file to a location on your computer where you can easily find it.

Step 2: Extract the PDF Viewer Tool:

Locate the downloaded file on your computer.

Right-click on the file and select "Extract" or "Extract All" from the context menu.

Choose a destination folder for the extracted files and click "Extract" to begin the extraction process.

Step 3: Viewing PDF Documents:

After extracting the PDF Viewer Tool, you can now extract and open PDF documents on your computer.

Locate the PDF file you wish to view and double-click on it to open it in the PDF Viewer Tool.

Navigate and open PDF documents on your computer.
